- Some practical matters also identified by IESBA’s Emerging Issues committee (EIOC)
  - E.g. Non-network component auditor firm (CA firm) to apply PIE or non-PIE independence requirements when parent entity is PIE but component is not?
➢ Revised definition of “engagement team” in ISA 220 (Revised) and ISQM 1
➢ Reference to “relevant ethical requirements” in IAASB standards
➢ Revised concepts and definitions in proposed ISA 600 (Revised)
Engagement Team Definition
### Proposed Definition: Engagement Team

**Defined Term** | **Extant Code** | **Proposed Definition aligns with ISQM1 (Marked-up against Extant Code)**
---|---|---
Engagement team (Applicable to all assurance engagements) | All partners and staff performing the engagement, and any individuals engaged by the firm or a network firm who perform **assurance procedures** on the engagement. This excludes external experts engaged by the firm or by a network firm. | All partners and staff performing the engagement, and any other individuals engaged by the firm or a network firm who perform assurance procedures on the engagement, excluding external experts and internal auditors who provide direct assistance on the engagement. This excludes external experts engaged by the firm or by a network firm.

The term “engagement team” also excludes individuals within the client’s internal audit function who provide direct assistance on an audit engagement when the external auditor complies with the requirements of ISA 610 (Revised 2013), *Using the Work of Internal Auditors.*

**In Part 4A, the term “engagement team” refers to individuals performing audit or review procedures on the audit or review engagement, respectively. This term is further described in paragraph 400.A.**

ISA 220 (Revised) provides further guidance on the definition of engagement team in the context of an audit of financial statements.

ISA 620 deals with the auditor’s responsibilities relating to the work of an individual or organization in a field of expertise other than accounting or auditing, when that work is used to assist the auditor in obtaining sufficient appropriate audit evidence.

ISA 610 (Revised 2013) deals with the auditor’s responsibilities if using the work of internal auditors, including using internal auditors to provide direct assistance on the audit engagement.

**In Part 4B, the term “engagement team” refers to individuals performing assurance procedures on the assurance engagement.**
Proposed Definitions: Audit Team, Review Team and Assurance Team

Audit Team

(a) All members of the engagement team for the audit engagement;

(b) All others within, or engaged by, a–the firm who can directly influence the outcome of the audit engagement, including:

(i) Those who recommend the compensation of, or who provide direct supervisory, management or other oversight of the engagement partner in connection with the performance of the audit engagement, including those at all successively senior levels above the engagement partner through to the individual who is the firm’s Senior or Managing Partner (Chief Executive or equivalent);

(ii) Those who provide consultation regarding technical or industry-specific issues, transactions or events for the engagement; and

(iii) Those who provide perform an engagement quality control for the engagement, including those who perform the review, or a review consistent with the objective of an engagement quality control review, for the engagement; and

(c) All those within a network firm who can directly influence the outcome of the audit engagement.

*Similar amendments are proposed for Review Team and Assurance Team definitions – refer to pages 48 and 51 of the ED*
Section 400 – New guidance on ET and AT

Proposed guidance on Engagement Team (ET) and Audit Team (AT):

• New application material in Section 400 to clarify which individuals are now considered part of ET and AT

**Engagement Team and Audit Team**

400.A An engagement team includes all partners and staff in the firm who perform audit procedures on the engagement, and any other individuals who perform such procedures who are from:

(a) A network firm; or

(b) A firm that is not a network firm, or another service provider.

For example, an individual from a component auditor firm who performs audit work on the financial information of a component for purposes of a group audit is a member of the engagement team for the group audit.

400.B In ISQM 1, a service provider includes an individual or organization external to the firm that provides a resource that is used in the performance of engagements. Service providers exclude the firm, a network firm or other structures or organizations in the network.
Proposed guidance on Engagement Team (ET) and Audit Team (AT):

• Clarifies which types of experts are included in ET and AT, and where EQR is included

400.C  An audit engagement might involve experts from the firm or a network firm, external experts or, in the case of a group audit, experts from a component auditor firm outside the group auditor firm’s network, who assist in the engagement. Depending on the role of the individuals, they might be engagement team or audit team members. For example:

- Individuals with expertise in a specialized area of accounting or auditing who perform audit procedures are engagement team members. These include, for example, individuals with expertise in accounting for income taxes or in auditing client information using automated tools and techniques.

- Individuals within or engaged by the firm who have direct influence over the outcome of the audit engagement through consultation regarding technical or industry-specific issues, transactions or events for the engagement are audit team members but not engagement team members.

- Individuals who are external experts in fields other than accounting or auditing are neither engagement team nor audit team members.

400.D  If the audit engagement is subject to an engagement quality review, the engagement quality reviewer and any other individuals performing the engagement quality review are audit team members but not engagement team members.
Proposed Section 405

Independence requirements for firms
- Group auditor firm and its network
- Component auditor firms outside the network

Audit team for the group audit

(a) The engagement team for the group audit, including individuals from component auditor firms who perform audit work related to components for purposes of the group audit;

(b) All others within, or engaged by, the group auditor firm who can directly influence the outcome of the group audit, including:

(i) Those who recommend the compensation of, or who provide direct supervisory, management or other oversight of the group engagement partner in connection with the performance of the group audit, including those at all successively senior levels above the group engagement partner through to the individual who is the firm’s Senior or Managing Partner (Chief Executive or equivalent);

(ii) Those who provide consultation regarding technical or industry-specific issues, transactions or events for the group audit; and

(iii) Those who perform an engagement quality review, or a review consistent with the objective of an engagement quality review, for the group audit;

(c) All those within a network firm of the group auditor firm’s network who can directly influence the outcome of the group audit; and

(d) Any individual within a component auditor firm outside the group auditor firm’s network who can directly influence the outcome of the group audit.
• ALL members of the audit team for the group audit are subject to the same independence requirements

• Independence is required with respect to the group audit client

Group audit client:

The entity on whose group financial statements the group auditor firm conducts an audit engagement. The group audit client includes its related entities as specified in paragraph R400.20 and any other components that are subject to audit work

Proposed Section 405, Group Audits

Key Principles: Independence for Non-network CA Firms

<table>

<td>• Section 511 requirements with respect to loans and guarantees involving the entity on whose group financial statements the group auditor expresses an opinion</td>
</tr>
<tr>
<td></td>
<td>• Apply conceptual framework with respect to all other related entities of the group audit client (if CA firm knows or has reason to believe a relationship or circumstance involving the CA firm is relevant to independence)</td>
</tr>
<tr>
<td></td>
<td>• Apply conceptual framework if CA firm knows, or has reason to believe, that threats to its independence are created by a relationship or circumstance of a firm within its network with the component audit client or group audit client</td>
</tr>
</tbody>
</table>
• Guidance on implications of applying PIE standard
  – Determination of key audit partners (KAPs)
    • New guidance on EPs who perform audit work on a component audit client for the purposes of group audit who are determined KAPs for the group audit by the GEP
  – Application of revised non-assurance services (NAS) provisions
    • New guidance on independence requirements for NAS provided by a non-network CA firm to the component audit client are those applicable for PIEs even if the component audit client is a non-PIE
Network CA Firms vs Non-network CA Firms

The extant Code largely treats a firm and its network firms as one for independence purposes

➢ Rationale for limited scope of independence requirements for CA firms outside GA firm’s network

• Recognizes that CA firm’s work is focused on component audit client and is subject to review by GA firm
• A proportionate approach that avoids unintended consequence of potentially limiting supply of CA firms for audits of components for group audit purposes
Changes in Component Auditor Firms

• Proposed application material in 405.13 A1 and 405.13 A2
  – circumstances in which the GAF requests another firm to perform audit work during or after the period covered by the group financial statements
  – A threat to the component auditor firm’s independence might be created by:
    o Financial or business relationships of the component auditor firm with the CAF during or after the period covered by the group financial statements but before the component auditor firm agrees to perform the audit work; or
    o Previous services provided to the component audit client by the component auditor firm.

• Application material per paragraphs 400.31 A1-A3
Breach of Independence
**COMPONENT AUDITOR FIRM**
- End, suspend or eliminate the breach and address the consequences;
- Evaluate the significance and impact on objectivity;
- Determine any other actions to be taken; and
- Communicate to the group engagement partner.

**GROUP ENGAGEMENT PARTNER**
- Review the CAF’s assessment and any proposed actions;
- Evaluate the impact on the CAF’s objectivity and the ability to use the CAF’s work for the group audit; and
- Determine any further action to be taken.

**TCWG**
Group auditor firm discusses:
- the significance of the breach; and
- whether actions proposed or taken would enable the group auditor firm to use the work of the component auditor firm.

Group auditor firm cannot use the work of the component auditor firm unless TCWG concur.
