Part 2: IFAC Code of Ethics for Professional Accountants Implementation Support

At its April 2009 meeting, the IESBA approved revisions to the IFAC Code of Ethics for Professional Accountants (the Code). The IESBA expects the revised Code to be published early in Q3 2009, after the Public Interest Oversight Board has confirmed that due process was followed in its development.

The IESBA plans to develop and issue a toolkit to assist member bodies and firms to implement the revised Code. This toolkit will include:

- Slide-deck with speaking notes outlining the changes to the Code;
- Template to assist member bodies and firms analyze differences between the requirements in their jurisdiction and the Code; and
- Comparison of the revised Code to the previous Code.

Is there other material which you think would be of assistance? Please be as specific as possible as to the nature and content of the material:

Part 3: IESBA Possible Future Projects

Part 3 asks you to indicate the priority of possible future projects for IESBA:

The IESBA has identified two projects which it believes are a top priority. These projects are Conflicts of Interest and Ethical Guidance for Professional Accountants when Encountering Fraud or Illegal Acts. Both of these projects are discussed below.

The IESBA considered whether to develop guidance in the Code on the standards against which independence would be judged in engagements to perform agreed-upon procedures and engagements to compile financial statements. The International Auditing and Assurance Standards Board has started a project addressing Reviews and Compilation Engagements. The IESBA plans to monitor the progress of that project before embarking on its own project to address the independence issues associated with compilation engagements.

The IESBA is seeking your confirmation of the priority of the two projects and your input on other future projects which should be addressed in the next 3-4 years. The following list includes the identified priority projects and other potential projects which could be carried out.

Please rank how important, in your view, the following projects are for achieving IESBA's objective of setting high quality ethical standards for professional accountants.

3.1 Conflicts of Interest

The Code, in Section 220 and Section 310, contains general guidance for professional accountants in practice and professional accountants in business who face conflicts of interest. The Code provides examples of conflicts and examples of safeguards to be applied when facing a conflict. The project would consider whether to expand the guidance in this area. It would consider matters such as:

- Providing additional guidance on the types of conflicts that could be encountered;
- Providing additional guidance on the institutional mechanisms that can safeguard confidential information and assist in managing conflicts of interest; and
- Developing a process which accountants could follow to identify and address conflicts of interest or potential conflicts of interest.

How important, relative to the other projects in this listing, is this project on conflicts of interest?

- ☐ very important
- ☐ important
- ☐ neither important nor unimportant
- ☐ unimportant
- ☐ very unimportant

3.2 Fraud and Illegal Acts

The Code, in Section 140, contains general guidance for all professional accountants regarding disclosure of confidential information. The Code provides for three circumstances where professional accountants are required, or may be required, to disclose confidential information:

- Disclosure is permitted by law and is authorized by the client or the employer;
- Disclosure is required by law; and
- There is a professional duty or right to disclosure when not prohibited by law.

Professional accountants in public practice and business may encounter situations including:

- The professional accountant discovers a suspected fraudulent or illegal act;
- The professional accountant has reported an alleged fraudulent or illegal act but no action has been taken, or the action is inadequate; and
- Another individual within the organization has informed the professional accountant about the existence of a suspected fraudulent or illegal act

The project would consider whether a global Code of Ethics should provide additional guidance for accountants when encountering fraud or illegal acts.

How important, relative to the other projects in this listing, is this project on fraud and illegal acts?

- ☐ very important
- ☐ important
- ☐ neither important nor unimportant
- ☐ unimportant
- ☐ very unimportant

3.3 Independence Requirements for Professional Accountants who are not in Public Practice who Perform Assurance Engagements

Sections 290 and 291 of the Code address independence requirements for assurance engagements. The sections apply to professional accountant in public practice. The project would address independence requirements for other professional accountants that perform assurance engagements such as accountants in government and internal auditors.

How important, relative to the other projects in this listing, is this project on independence requirements for professional accountants who are not in public practice who perform assurance engagements?

- ☐ very important
- ☐ important

Part B of the Code addresses all professional services provided by professional accountants in practice. The project would address additional ethical guidance for professional accountants in public practice that provide non-assurance services such as financial advisory services, taxation services and actuarial advisory services.

Do you believe the IESBA should undertake any initiatives in this area such as, for example, developing thought pieces on matters such as integrity? If so, please describe the activities you believe the IESBA should undertake it would be helpful if you could be as specific as possible.

Part 5: Finalizing the Survey
