

IESBA Firm Culture and Governance Working Group — Draft Terms of Reference (Updated)

A. Background

1. In recent years, public trust in the accountancy profession has been buffeted by recurring high-profile corporate failures and cases of unethical behavior in firms. In particular, some of the recent cases of unethical behavior by professional accountants in public practice (PAPPs) have resulted in significant sanctions and other adverse consequences ~~forte~~ individual PAPPs and their firms in several jurisdictions.
2. In response to these issues, the IESBA released a public [statement](#) in July 2023 emphasizing the critical importance of ethical behavior for all PAs and reminding them of their ethical obligations under the Code. These obligations include upholding the fundamental principles and complying with the specific requirements of the Code, which enable PAs to meet their responsibility to act in the public interest. The Global Accounting Alliance (GAA) also issued a [statement](#) in August 2023 highlighting the profession's responsibility to act in the public interest despite increasing pressures on PAs to act unethically, thereby reinforcing the Code's importance.
3. The IESBA is of the view that the persistence of such unethical behavior in firms raises the broader issue of firm culture and governance and how these might impact the ethical behavior of PAs and compliance with the Code. As highlighted in the IESBA's 2024-2027 Strategy and Work Plan (SWP), firm culture impacts not only the reputation of individual firms and the public's trust in the accountancy profession but also the attraction and retention of talent, an issue that goes to the heart of the vibrancy and longer-term sustainability of the profession.
4. Given the significant public interest consequences when unethical behavior occurs in firms, the IESBA believes it should take a leadership role as a global ethics standard-setter in addressing the topic of firm culture and governance as a strategic priority during the next strategy period. In committing to this strategic priority, the IESBA recognized that the Code currently only deals in a limited way¹ with ethical culture and tone at the top within organizations.

B. Objectives

5. The objectives of the Working Group (WG) are to:
 - (a) — Gather an understanding of ~~what factors contribute to breaches of culture and governance and their impact on compliance with~~ ethics and independence requirements in accounting firms (“firms”) and, where applicable, their networks (“firms”);
 - (a) _____
 - (b) — Review the extant provisions on organizational and firm culture in ~~Parts 1, 2, and 3 of the Code,~~ and consider whether the Code should be further strengthened to ~~bring to the fore the~~

¹ Paragraphs 120.13 A3, 200.5 A3 and 300.5 A2, set out an expectation that professional accountants, taking into account their position and seniority within their organizations or firms, encourage and promote an ethics-based culture within their organizations or firms.
