4. SECTION III: SSBs' STRATEGIC POSITIONING FOR 2028–2031

4. As the SSBs look toward the 2028–2031 period, they are reflecting on how to position their strategies and work plans to best serve the public interest within a rapidly changing global environment. This involves careful consideration of how the SSBs remain relevant, responsive, and impactful in their standard-setting and other related work. In that context, what do you believe the SSBs should aspire to achieve during their next strategy period, 2028–2031?

Your answer may touch on different dimensions, for example:

The relevance, responsiveness and impact of the SSBs' standard-setting and related activities.

Broader adoption and effective implementation of the SSBs' standards.

The SSBs' interaction and engagement with key stakeholder groups.

The SSBs' ability to serve the public interest.

The examples above are for illustrative purposes only and should not limit, direct, or otherwise influence your response.

Your answer should address the IAASB and IESBA collectively; however, you may wish to also highlight matters specifically for the IAASB or IESBA (if applicable, you could use separate headings to address such matters).

With regard to sustainability disclosure and its assurance, it is crucial not only to establish assurance providers' standards and ethical guidelines but also to build internal control systems to ensure the reliability of the information. To this end, the role of those charged with governance is of paramount importance. Unfortunately, however, the development of relevant rules in the governance sphere has lagged behind. This is a matter of serious concern.

9. SECTION IV: KEY TRENDS IMPACTING THE SSBs

D.1 Evolving Structure and Business Models of Accounting Firms – Alternative Ownership Structures

Due to factors such as the need to adapt to AI, audit firms' capital requirements are expected to increase, and as a result, we anticipate a rise in cases where private equity firms provide funding. While private equity firms are expected to push for improvements in audit firm governance, there is also a risk that they may pressure audit firms to prioritize short-term profits, leading to a decline in audit quality. Furthermore, there is a risk that audit independence could be compromised if the audited companies themselves invest in private equity firms. It is necessary to closely monitor trends in private equity investment and related discussions.

D.2 Evolving Structure and Business Models of Accounting Firms – Increased Involvement of Non-Professional Accountants in the Accounting and Auditing Profession

6 – Strongly increasing in importance

Please explain why you do not believe this should be considered a relevant trend for the SSBs:

Do you wish to highlight any matters relating to this trend or identified impacts, or any additional impacts, for the IAASB or IESBA or both the SSBs?

While it is certainly desirable for audit firms to possess a diverse range of skills, there is concern that, for example, as consulting services expand, the importance of audit and assurance services may decline, potentially leading to a decline in the quality of those services.

D.3 Evolving Structure and Business Models of Accounting Firms – Challenges to Attracting and Retaining Talent

6 – Strongly increasing in importance

Please explain why you do not believe this should be considered a relevant trend for the SSBs:

Do you wish to highlight any matters relating to this trend or identified impacts, or any additional impacts, for the IAASB or IESBA or both the SSBs?

Rather than relying on the expansion of popular consulting services, audit firms should secure high-quality talent by helping potential candidates understand the significant social importance of audit and assurance services and by enhancing the appeal of these services.

D.4 Evolving Structure and Business Models of Accounting Firms – Non-Assurance Service Line

5 – Increasing in importance

Please explain why you do not believe this should be considered a relevant trend for the SSBs:

Do you wish to highlight any matters relating to this trend or identified impacts, or any additional impacts, for the IAASB or IESBA or both the SSBs?

While it is an important source of revenue, the core of the business should remain audit and assurance services.
