4. SECTION III: SSBs' STRATEGIC POSITIONING FOR 2028–2031

4. As the SSBs look toward the 2028–2031 period, they are reflecting on how to position their strategies and work plans to best serve the public interest within a rapidly changing global environment. This involves careful consideration of how the SSBs remain relevant, responsive, and impactful in their standard-setting and other related work. In that context, what do you believe the SSBs should aspire to achieve during their next strategy period, 2028–2031?

Your answer may touch on different dimensions, for example:

The relevance, responsiveness and impact of the SSBs' standard-setting and related activities.

Broader adoption and effective implementation of the SSBs' standards.

The SSBs' interaction and engagement with key stakeholder groups.

The SSBs' ability to serve the public interest.

The examples above are for illustrative purposes only and should not limit, direct, or otherwise influence your response.

Your answer should address the IAASB and IESBA collectively; however, you may wish to also highlight matters specifically for the IAASB or IESBA (if applicable, you could use separate headings to address such matters).

Raising the awareness of the positive impact of international standard setting among different stakeholder groups, also beyond the audit/accounting profession.

Improved coordination between IAASB and IESBA, especially for joint projects or projects that have an impact on the other SSB's activities.

Reacting adequately to the uncertain geopolitical development and in this context the necessary interaction and engagement with key stakeholder groups.

Considering the evolution of the audit environment, such as PE-investments in audit/accounting firms, digitalization, etc.

Please explain why you do not believe this should be considered a relevant trend

for the SSBs:

Do you wish to highlight any matters relating to this trend or identified impacts, or any additional impacts, for the IAASB or IESBA or both the SSBs?

Due to increase use of emerging technologies it is likely that less staff is needed in accounting firms. The challenge will be to attract talents that have advanced skills, because easy tasks will be done by AI. Another challenge will be to evaluate whether the AI output is correct, especially for young talents who are grown up in an AI environment.

D.4 Evolving Structure and Business Models of Accounting Firms – Non-Assurance Service Line

4 – Slightly increasing in importance

Please explain why you do not believe this should be considered a relevant trend for the SSBs:

Do you wish to highlight any matters relating to this trend or identified impacts, or any additional impacts, for the IAASB or IESBA or both the SSBs?
